### **Welcome to Little Rock K-9 Academy**

We are a worldwide producer of superb quality Police Patrol and Narcotic Detector Dogs. ALL of our Police Service Dogs are pre-trained in Narcotics Detection, Obedience, Tracking, Area & Building Searches and Criminal Apprehension. By training the dogs in advance we minimize the handler's down time from the Department while away attending our Handler's Course.

Our Handler Courses are the most advanced and informative in the industry. We limit our handler courses to 8 handlers and our Handler to Instructor ratio is about 3 to 1. Our Resulting Instructor Team maintains minimal down time and expects strict attention to detail from the handlers. Some companies Handler's Courses are 3 weeks or more because the handlers are doing the subsequent training of their dog. Again, because our dogs are trained in advance, our course time for a Narcotic Detector Dog is one week (40-50 hours) and Patrol Dog Course is 2 weeks (80-90 hours).

All of our Handler's Courses are submitted to Arkansas Commission on Law Enforcement Standards & Training and are approved courses. Our Handler Course training hours has been accepted by each police agency, Worldwide. Each Handler is given written and practical exams upon each completion phase of our courses. Upon completion of the Handler's Course, we furnish each Police Agency with a detailed packet that contains the Handler's: course curriculum, test scores, performance synopsis, certification certificates

,  
a  
special certificate from the Governor of Arkansas and a Thank You letter.
